# Slim Cool Keyboard

Small in size, Big in impact

Whatever its features, no keyboard should compromise the health of you, your staff, or your customers. Ordinary keyboards are vulnerable to blood, splatter, and contaminants that no disinfectant can reach. You can't be confident that a keyboard will enhance your infection control protocols unless that keyboard is sealed and seamless.

The Slim Cool is sealed, seamless, ergonomic and silent. It can hold up to the rigors of multiple users 24/7 with repeated cleaning and disinfecting with a bleach solution or EPA-registered disinfectant. Featuring TruLock, our key lock technology, for easy cleaning at the workstation without detaching the keyboard from the PC.

The low profile design of the Slim Cool allows for a one-wipe clean, and has the familiar tactile feel of a standard keyboard without annoying clicks. Its compact size with full-sized keys, makes this keyboard the perfect fit on workstations where space is limited.

Optional multilevel backlight for typing in low-light environments, and MagFix (built-in magnets) eliminate the need for dirty Velcro™ or tape, make the Slim Cool the ideal solution throughout any facility.

Combine the Slim Cool with a Sealed Mouse and Sterilizable Mouse Pad for a complete infection control solution.

**Tru-Lock** - Lock it, then clean it. TruLock prevents unwanted characters and commands from being entered during cleaning & disinfection procedures

**Sealed Low Profile Design** - Easily clean and disinfect between the keys with an EPA-registered wipe. Sealed design prevents blood splatter and other bio-load from getting trapped between and beneath the keys.

**Multi-Level Backlight** - Our backlight lets you type in low light environments. Set the backlight to your exact preference.

**MagFix** - Built-in magnets allow typing at any angle when using on wall-mounts or keyboard flip-up trays. Avoid the use of dirty Velcro™ and double-sided tape.

**Smart Cable**: Non-standard cable lengths available

**Private Label** - Add a one-color custom logo
